

REMARKS

This amendment responds to the Office action dated July 18, 2007.

Claims 1-13 are canceled. Claim 14, the only remaining claim, is allowed.

The Office Action Summary indicates, by selection of two boxes in item 10, that the drawings filed on 15 June 2007 are both accepted and objected to by the Examiner. Applicant believes this issue was resolved in the last response, that the drawings actually have been accepted as stated in the Examiner's remarks, and that both boxes have been checked inadvertently. Applicant requests clarification of this inconsistency.

In light of these amendments, all claims are considered to be novel, non-obvious and patentable in view of the cited art. The examiner is invited to contact applicant's attorney directly for any reason.

Respectfully submitted,

/Scott C. Krieger/
